**Together, we will shape
Africa's energy future.**

African Energy Chamber Membership

Over 70% of the oil and gas industry across the African continent entrusts us to represent, advocate and support our energy sector, its companies and its workers. We have unrivalled business relationships, working with some of the most successful companies and institutions in the industry to support our members.

The African Energy Chamber promotes collaboration and excellence.

We are the home for indigenous and international companies, entrepreneurs, individuals as well as governments, non-governmental organisations and research institutions.

We are the strategic partner for several energy and petroleum ministries, and have led countless policy-making efforts.

Join us today to reach higher heights with your business!

**Africa is a
powerhouse.**

**Join us at the forefront
of the African energy
industry.**

We draw on the **experience, expertise
and collective strength of our members**
to actively lead on shaping policies,
sharing best practice and using resources
to create value for Africans.

NJ AYUK
EXECUTIVE CHAIRMAN
AFRICAN ENERGY CHAMBER

The African Energy Chamber is the only network on the African continent that represents all facets of the energy industry. We have created an environment that allows the energy sector to speak with a single, united and powerful voice when it comes to advocating on behalf of our members, employees, host communities, investors, local companies and international companies. We're extremely proud of that and extremely proud to represent our members around the world.

Millions of Africans are passionate about making the energy sector work for Africans and its investors, while promoting free markets and individual liberty. The African Energy Chamber membership shares a desire for creating deal-making opportunities, an enabling environment for business and people to thrive. Together, we are building a better Africa that works for all. We want to make our continent the number one destination for investment in the upstream, midstream, and downstream segments of the energy industry. To achieve this, we all have an obligation to push for and achieve a business-friendly climate in every single country on the African continent.

We know that in coming together and working together, we will continue to foster an environment ripe with opportunities and job growth around Africa. Membership is a key step when it comes to forging that path to build a better energy sector. The energy sector serves to power Africa, to build on the local content gains and to make women in energy a central part of the future of our continent.

Our success so far has been our unique ability to bring together business and civic-minded leaders to address the Africa's diverse energy sector challenges. All of us have a responsibility to make our beautiful continent one of the best places to live, work and build a business.

With our members, we're creating relationships that will leave a legacy for future generations. With so much on the line now, we cannot afford to be complacent. We need your continued support and we mean business.

Join us and support a thriving community of energy sector leaders and you'll find opportunities to prosper.

Sincerely,

A handwritten signature in blue ink, appearing to read 'NJ AYUK', written over a horizontal line.

NJ AYUK
Executive Chairman
African Energy Chamber

Members of the Chamber have access to unique opportunities and benefits, including:

- Input in our advocacy efforts: ensure that your voice is represented and heard within policymaking and government decisions via polls, surveys, consultations and focus groups.

- Feature in our campaigns and share your insights with us as well as the wider AEC membership.

- Access to latest market briefs, reports and studies.

- Preferential rates to attend all partner local and international conferences & exhibitions.

- Exclusive access to AEC webinars, conferences and training opportunities.

- Regular networking opportunities with leading movers and shakers in the industry.

- Members-only exclusives on job opportunities, deals and tenders.

- Newsletters: latest market-moving information and calls to action.

- Member spotlight in our marketing channels and newsletters.

"The African Energy Chamber is a true advocate of Africa on the international stage. Its constant efforts to put our continent at the forefront of global energy transformations will go a long way in giving Africa the representation it truly deserves as place of opportunity."

– **H.E. Mohammad Sanusi Barkindo**
Secretary General
OPEC

How can we work together?

INDIVIDUAL

We equip you with all that you need to be at the forefront of the energy sector across Africa. Our individual members are important to us and provide a wealth of expertise, diversity of thought and approach.

ENTREPRENEUR AND START-UPS

We are staunch believers that entrepreneurs and start-ups are the future of the energy sector in Africa! Membership with us means accessing vital business support advice and discounted services, including HR, legal, tax and financial.

Our networking opportunities are second to none, ensuring you have a platform to promote your solutions and ideas.

LOCAL COMPANY

The AEC promotes and strives to create opportunities for African companies in the energy industry. We do not support agents. We promote entrepreneurs, and we've developed a programme tailored for this purpose: From Agent To Entrepreneur (FATE). As part of your membership, we provide support on personnel training, job creation, support for expansion into additional areas of operation or territories, relationship building with key

stakeholders, exclusive tenders, opportunities to join us on our roadshow and delegation and finally, via our directory.

INTERNATIONAL COMPANY

We believe Africa will not develop without foreign capital and technology, and we collaborate with companies that are looking to enter or expand in Africa to develop local economies. We provide you with inside-track information and contacts to ensure successful market entry and penetration. Talk to us about partnerships to drive business forward.

GOVERNMENT

Change must be led by active and engaged government departments committed to providing an enabling business environment for investors. We work closely with energy ministries and policy makers to help deliver sustainable, beneficial and profitable energy sector growth and local value generation. Our unique position as a pan-African organisation means we have our ear to the ground and can feed back what our membership experiences to governments and decision-makers.

THINK TANKS, RESEARCH ORGANISATIONS AND OTHER SIMILAR INSTITUTIONS

Join us to build a data-driven approach around the African energy industry. It's paramount to us that we dig deeper and produce facts speaking to the opportunities and unique challenges faced across the sector.
